**ANNUAL STATISTICAL REPORT
FISCAL YEAR 2000-2001
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT
CENTERS**

INTRODUCTION

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2000 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides the demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c presents number of persons served by the three ADATCs for two populations of special interest, pregnant women and injection drug users, by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years and Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for three Alcohol & Drug Abuse Treatment Centers.

ADMISSIONS

Admissions have increased from 3,816 in fiscal year 2000 to 3,613 in fiscal year 2001. This is a 5.3 percent decrease from FY00.

DISCHARGES:

There were 3,618 total direct discharges, deaths, indirect discharges, and transfer-outs in FY01. There were no deaths reported during FY01. The percent of direct discharges among total discharges was about 65 percent, while the percent of indirect discharges, those clients being discharged while on some type of leave placement, was about 35 percent in fiscal year 2001.

PERSONS SERVED:

The statistic “Person Served” is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were 3,813 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2001.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 30.0, than in the remaining three regions, in which each of the ADATCs are located. The Western, North Central, and Eastern regions rates are 41.0, 57.6, and 61.5 persons served per 100,000 population respectively. The “Persons Served” rate ranges from a high of 178.6 in Dare County to a low of 4.4 in Stokes County, with an overall statewide rate of 46.4.

The average length of stay in FY01 was 18.9 days, 0.2 of a day decrease from 19.1 days in FY00. The length of stay decreased at Black Mountain by 2.5 days and increased at Jones by 1.5 days. Butner’s Length of Stay increased by 0.6 of a day from 15.5 to 16.1.

About thirty four percent of persons served at the ADATCs in FY01 were women, a increase from 31 percent in FY00. The percentage of nonwhite persons served at ADATCs was 36 percent in FY01, slightly decreasing from 38.2 percent in FY00.

For fiscal year 2001, 43.6 percent of the persons served reported alcohol as their primary drug of choice and 39.1 percent reported cocaine. In FY01 alcohol as a primary drug of choice decreased by 10.2 percent and cocaine as a primary drug of choice increased by 8.5 percent compared to FY00. Overall, 64.3 percent of persons served reported abusing alcohol, 59.4 percent cocaine, and 45.0 percent marijuana in FY01.
